

## Netop Remote Control Mobile and Embedded Installation Guide - Host (EN)

Article Number: 112 | Last Updated: Tue, Jan 31, 2017 3:02 PM

This guide explains how to install Netop Mobile.

You can install Netop Mobile on a mobile device either from a desktop computer or from a web server that stores Netop Mobile installation files.

To install Netop Mobile from a desktop computer, you must install the Netop Mobile installation files on the desktop computer.

To customize the Netop Mobile Host configuration, you must install Netop Mobile Host Manager on a desktop computer.
