

## Netop Live Guide - Exporting data for processing in other systems

Article Number: 185 | Last Updated: Tue, Dec 1, 2015 1:53 PM

Live Guide provides an easy way to export data into various formats. The exported data can then be imported into other systems, like for example Customer Relationship Management systems, and be further processed in already existing company flows. This article describes the steps involved in exporting data from Live Guide. Posted - Tue, Dec 1, 2015 1:53 PM.
