Netop Mobile iOS Guest Guide

Article Number: 307 | Last Updated: Tue, Aug 29, 2017 1:43 PM

Netop Remote Control Mobile allows support staff and system administrators to gain secure remote access to the enterprise and provide real-time screen transfer and control over the keyboard and mouse of any machine running a compatible version of Netop Remote Control on Windows operating systems.

Note: To access and support a Windows machine using Netop Remote Control Mobile, the target machine must be running a Netop Remote Control Host version 10.0 or later. For more information, please visit our web site www.netop.com.
