

Netop Remote Control Multi-Factor Authentication using the Netop Portal

Article Number: 451 | Last Updated: Tue, Jan 31, 2017 8:48 AM

Starting with NRC version 12.6. an email based multi-factor authentication service is available using the Netop Portal. **Prerequisite:** To be able to use this functionality, an upgrade to the Guest and the Host is required to the 12.60 version. For detailed information, see the pdf attached.
