

Live Guide Chat Button - Google Tag Manager

Article Number: 470 | Last Updated: Mon, Jan 29, 2018 11:26 AM

By default, Google hides the created tags and, therefore, the call button. To display the call button, add the following lines of code when creating the tag:

 \hat{A}

```

    var hiddenDiv =
document.getElementById('LiveGuideGoogleTagManager').parentElement;

```

```

    hiddenDiv.style.visibility = null;

```

```

    hiddenDiv.style.display = null;

```

 \hat{A} $\hat{A} \quad \hat{A}$

PASTE THE LIVE GUIDE BUTTON CODE FROM THE
 ADMINISTRATION CONSOLE (SETUP > CODE BUILDER)

 \hat{A}
