

## Sample custom configuration files

Article Number: 487 | Last Updated: Tue, May 28, 2019 10:07 PM

Various options for the Teacher and Student apps are available as a custom configurations on the device where the application is running. These options are explained in the [Admin Guide](#). An archive (zip file) is attached to this article containing sample files for the different apps. The files in the archive are:  
managed-policy-config.xml - for Chrome apps (Teacher on all operating systems and Student on Chrome OS)  
managed-policy-config-win.reg - for native Teacher app on Windows  
com.netop.visionteacher.plist - for native Teacher app on Mac
