

How do I access the Vision Portal?

Article Number: 498 | Last Updated: Thu, May 9, 2019 10:09 PM

Applies to: Vision for Chromebooks With the latest Vision for Chromebooks release, Netop has introduced the Vision Portal. The Vision Portal offers teachers additional options for customization while maintaining a streamlined interface within the application. Teachers are able to do the following things: Create Web Filters Automatically start classes Automatically stop classes after a designated time period You can access the Vision Portal two ways: By going to <https://vision.netop.com> in a web browser. Enter your Google or Clever credentials based on what method you are using * **This website is able to be accessed outside of your schools network** OR When signed into the Vision Teacher For Chromebooks Application Click the vertical ellipsis in the upper right hand corner Select 'More Settings' (This takes you to the Vision Portal website)
